

2017 ANNUAL BARE ROOT TREE SALE

WHY BARE ROOT TREES AND SHRUBS?

Low Cost Easy to Transport Easy to Plant

To be successful, bare root trees and shrubs are **only recommended to be planted in the early Spring** in our area of the country - **a once a year opportunity!** These are the same starter plants that professional growers line out and pot up to create robust finished landscape specimens. Bare root trees and shrubs ordered ahead of time will be available for pick up at our Marengo, Illinois Farm in mid-April. Pick up is during our Spring Open House & Bare Root Tree & Shrub Sale when we are open to the public. Pick up may also be scheduled by appointment.

WHY OHANA FARMS?

Put our expertise in sourcing, handling and planting bare root stock to work for you. Ohana Farms is your **local source** for Midwestern hardy bare root trees & shrubs. All plants originate from **northern sources** and are **proven hardy** in our tough climate. We'll provide you with **detailed handling & planting guidelines** as well as recommendations on trees & shrubs best suited for your location.

Ohana Farms is one of the few nurseries in Northern Illinois who make our bare root stock available to the public – and we have **Northern Illinois largest selection** of bare root **evergreens, shade & ornamental trees, shrubs** and hard to find **Illinois natives**. **Check out our expanded EDIBLES selections.** Need larger, more mature plants? We have fresh dug B&B & container grown options on over 150 varieties.

Many of our hard to find varieties sell out quickly - order early for best selection. To place an order please call or email – we will email you a detailed invoice and advise you when your plants are ready for pick-up.
