NATIVE Indicates the variety is a proven, locally hardy, Northern Native Species or a cultivar of a Northern Native species. We grow both straight species & cultivars.

SIZE **1** **5-9** **10+ (TRADE)**

AESCULUS PARVIFLORA Bottlebrush Buckeye

Truly one of the best shrubs for late-spring and early-summer flower. Excellent plant for massing, clumping or placing in shrub borders.

Very effective when used under shade trees and in other shady areas.

The 8-12" long, bottle-brush shaped inflorescences contain hundreds of white, four-petaled flowers with pinkish white stamens that stand out an inch from the petals. Prefers acidic, well drained, moist soil but adapts easily.

Shade to partial sun H: 8-12' W: 8-15'

4'	195	175	145
5'	235	210	175

ARONIA ARBUTIFOLIA Red Chokeberry

NATIVE

Most useful way for this species is to use for border, massing and in groups. Brilliant fruit display a sea of red in fall and winter. Perfect white or slightly reddish flowers occur in May.

Tolerates both wet and dry soils; full sun or 1/2 shade. H:6-10' W:3-5'

#3	29	26	20
#5	39	36	26

ARONIA MELANOCARPA Black Chokeberry

NATIVE

Truly a plant for all seasons, this tough, dependable shrub offers handsome foliage, showy flowers and a nice display of fruits. Its leaves are glossy green and they turn bright red in the fall. The white flowers bloom in late spring and are followed by black berries that persist into the winter.

Full sun to light shade H: 3-6' W: 2-6'

PRUNUS AMERICANA American Plum

NATIVE

Is a common shrub or small tree. Loads of pure white flowers emerge early to mid-March about the same time as Redbud. Bark is curly and very dark. Plum red fruits are relished by wildlife, and utilized for jellies and jams. Tends to thrive with neglect. No special culture requirements.

H&W 15-25'

#3	29	26	20
#5	39	36	26

RHUS AROMATICIA Fragrant Sumac

NATIVE species & 'low grow cultivar'

Fragrant sumac is an irregular, spreading, deciduous shrub, 6-10 ft. tall, with velvety twigs and lower branches turned up at the tips. Glossy, somewhat blue-green, coarsely toothed, trifoliate leaves turn orange, red, purple and yellow in the fall. Yellowish catkin-like flowers precede dark-red berries which persist into March. A sprawling, small to medium-size shrub with aromatic foliage. Low grow cultivar stays 2' tall.

#3	34	31	26
----	----	----	----

RHUS TYPHINA Staghorn Sumac

NATIVE

Staghorn is derived from the hair on the stems that look like a buck's antlers. The branches are covered with dense velvety hairs. It also produces clusters of crimson red fruits and its foliage turns shades of yellow, orange and scarlet in fall; often spectacular leaf out late in spring.

H15-20'W:6-12' Tolerates very dry soil. Full sun

SAMBUCUS CANADENSIS Elderberry

NATIVE

A hardy shrub that grows on almost any site. Great for shrub borders. The purple-black fruit is good for jellies, pies, juice, wine and attracting birds. The perfect yellow-white flowers come out in June. Full sun to part shade.

H:8-10'W:6-8'

#3	29	26	20
#5	39	36	26

SPIREA X BUMALDA / SPIREA JAPONICA Spirea

Goldflame: Is one of the most popular forms and appears to be on fire when the leaves emerge in the spring. Russet-orange to bronze-red leaves change to soft yellow, yellow-green and, finally, green. The spring leaf colors are often repeated in fall, making a rather handsome display. Light red flowers in summer. H:2-3'W:4'

Neon Flash: Rich red flowers, reddish new growth, dark green at maturity. Rounded shrub. H:3'W:2'

Goldmound: Is a low-mounded form with pink flowers in May and June and golden leaves throughout the growing season. The golden leaf color fades in summer to a yellow-green. Develops reasonable orangish-red fall color. Great addition to shrub and perennial borders, or any spot in full sun. H:2'W:3'

Little Princess: This selection has larger leaves and deeper pink flower color. Fall color is dark red. H:2'W:3'

Magic Carpet: Almost a ground cover variation of 'Goldflame' orange-red to reddish purple young shoots, yellow-gold at maturity, pinkish flowers. Fall color is rich russet tones. H:10-18" W:2-3'

#3	29	26	20
#5	39	36	26

SPIREA VANHOUTTEI Bridalwreath Spirea

The granddaddy of all spireas. The habit is distinctly arching and fountain like. The 3/4 - to 1 3/4-in.-long leaves are often three lobed and have a distinct blue-green color. White flowers, which appear in May

In flower the shrub is extremely showy. H:6-8'W:10-12'
